A visit to "Le Ciel by Toni Mörwald" is a culinary journey of delight. Chef Roland Huber thinks as little of limiting himself to an explicit kitchen philosophy as he does of well-worn terms such as regional or seasonal. With his straightforward approach and unmistakable signature, he designs dishes that are modern, clear, and stand alone. And he never neglects to inject a little playfulness. For Roland Huber, the ingredients are always at the forefront. He is forever on the lookout for new products. All his dishes have one thing in common: they are created from exceptional ingredients, and prepared to perfection – quite simply the essence of taste.
